

Event 2022 App Tips:

Navigate the side menu by swiping your screen to the right or by pressing the icon of three parallel lines.

View what people are saying about the event on the Activity Feed. Share your images, comments, and like other attendees' posts.

Select the star icon on your favorite program items to receive notifications before they start so that you don't miss a minute. Evaluate program items after you attend them to give speakers feedback and earn points!

See key information about your event under the Information tab.

View your latest "push notifications" under the **Dialogue** section to keep current with any surveys and polls. **This is where you answer all polling questions and surveys.**

Network with other attendees in the Participant section using our **chat feature**. Mark someone as your favorite and write yourself notes about your conversation so you can pick up with them after the event is over.

Leave yourself personal notes using the notes feature in the side menu and export them outside of the app when your event is done so that you don't lose any information.

To answer **evaluations in the app**, navigate to the program section and click on a program item. Once you click on a program item, you will see an evaluate button underneath the program title directly to the right of the "my program" button. Click evaluate to answer the questions.

To answer **evaluations in the web platform**, navigate to the program section and click on a program item. Once you click on a program item, you will see an evaluate button on the right side of your screen. Click that button and you can answer the questions.

To access the **Live Stream**, navigate to the **program** section and select the program item and click "connect to meeting"
